In the publication by Liu et al., the authors have identified the following errors.

Reference "Yan et al." was incorrectly cited in the second paragraph of the Introduction section in the sentence "The model efficacy in ... of nanozyme technology." The reference citation "Yan et al." should be changed to "Gao et al." and reference [9] updated as follows:

Gao L, Zhuang J, Nie L, Zhang J, Zhang Y, Gu N, et al.: Intrinsic Peroxidase-Like Activity of Ferromagnetic Nanoparticles. *Nature Nanotechnol* 2007, 2:577–583.

Also, the authors would like to update the following sentences due to the mismatch of author names with the corresponding references in the reference list:

In Section 2.1, first paragraph, 12th line: "Zhang et al." should be corrected to "Zhong et al." in the

sentence "For example, Zhang et al. [14] developed ... zinc-based nanozyme (ZIF-8)."

In Section 2.5, first paragraph, 4th line: "Zheng et al." should be corrected to "Jheng et al." in the sentence "A platelet membrane (PM)-functionalized...and alteplase (rtPA)."

The authors regret that these errors were not identified during the final proof review and apologize for any inconvenience caused.
