In the publication by Zu et al., the authors identified that the reference "Lowry et al." was incorrectly cited in the first paragraph of Section 2.7 in the sentence "Protein concentrations were ... as a standard." The reference citation "Lowry et al." should be replaced with "Gilboa et al."

Also, in the Introduction section, second paragraph, 7th line, "Yano et al." should be corrected to "Razori et al. and Yano et al." in the sentence "Yano et al. have found ... with cholestasis severity [15,16]."

The authors regret that these errors were not identified during the final proof review.

The authors would like to apologize for any inconvenience caused.
